

An Invitation From NAIT

The Northern Alberta Institute of Technology is hosting Roberts R. Carkhuff, an international figure and a pioneer in the field of human resource development and productivity improvements.

Dr. Carkhuff will speak and conduct a workshop on 10 June. The following day, there will be three concurrent workshops.

The "Productive Thinking Skills" session (10 June) uses skills and methods developed by Dr. Carkhuff to meet the increasing demand for human skills technology to deal with "new age" problems in new ways. One such problem is dealing with the information overload in a manner that leads to concrete, constructive outcomes.

Dr. Carkhuff will identify specific skill steps that can be learned and applied in a variety of settings and made applicable to administrators, managers, supervisors and instructors.

The following workshops will have approximately 25 participants (one workshop per participant) and will provide opportunities to practise and apply the skills identified and discussed during the previous day.

NAIT has generously extended a large number of invitations to University of Alberta professors. Bente Roed Cochran, Coordinator, Committee for the Improvement of Teaching and Learning, is handling registration. She asks that those interested in the sessions get in touch with her (612 SUB, 432-2826) prior to 21 May. □

Dollars Sought for Chair of Deafness Studies

Our University wants to help deal with the problems of living with deafness by establishing an endowed Chair of Deafness Studies.

A grant of \$500,000 has been offered for this purpose by the Office of the Secretary of State—provided a matching \$500,000 is raised. For the past year, a committee has been hard at work raising funds: \$100,000 has been donated so far, and it's hoped the remainder will soon start rolling in—May is Deaf Awareness Month.

Deafness is the invisible handicap: more people are totally deaf than are legally blind, and hearing impairment is the single most common chronic physical disability in North America. In Canada there are some 2.5 million hearing impaired, and in Alberta there are as many as 380,000.

Educational and employment opportunities for young deaf people are limited. They often end up unemployed, with little language and no speech, and in trouble with the police. Many are capable of being helped but there are not enough existing services.

Most people's hearing becomes noticeably less acute by the time they are 40. One of every two people over 65 has a hearing problem. By age 75, one of every five people is deaf. But older people who lose their hearing have trouble accepting the disability. And because they are reluctant to find and use the right hearing aid, they withdraw from society. In any case, very few hearing people have any training in communicating with the deaf.

In 1980, the Department of Educational Psychology launched a program to train teachers of the hearing impaired. It has been highly successful, and has led to the establishment (with a grant from the federal government) of a Western Canadian Centre of Specialization in Deafness.

The Chair of Deafness Studies will have as its focus helping the deaf or hard of hearing to overcome

the problems of living with a hearing disability. A secondary goal will be to build awareness, understanding, and acceptance of deaf people by the hearing community.

Establishment of the Chair will bring to Edmonton a series of internationally recognized scholars, each of whom investigates and lectures on a specific aspect of deafness. The Chair-holder will

both teach and research, with emphasis on increasing the opportunities for the hearing impaired, and particular emphasis on meeting post-secondary needs of deaf students.

The research and outreach possible through this initiative will go a long way towards understanding and dealing with deafness. □

Albertans Opposed to Cutbacks in University Funding, Survey Shows

Albertans feel that universities should remain a high priority in public funding, even in times of restraint.

This is one of the findings of an independently conducted public opinion survey commissioned by the Confederation of Alberta Faculty Associations, its member university faculty associations and the Universities of Alberta, Calgary and Lethbridge. The random sample survey examined the attitudes of 876 Albertans, 295 in Edmonton, 303 in Calgary, 50 in Lethbridge and 228 in the remainder of the province. (A survey of this size is accurate to within plus/minus 2.5 percent, 19 out of 20 times.)

Asked whether they would support budget cuts in nine spending areas, 80 percent of the respondents said they would not support cutbacks in funding for higher education. Health was the only spending area where opposition to cutbacks was higher.

In the eight other areas, opposition to cuts was expressed as follows:

- against cuts in health spending, 82.3 percent
- in farm assistance, 74.9 percent
- in highways, 69.8 percent

- in social services, 69 percent
- in business assistance, 57.7 percent
- in culture, 50.9 percent
- in energy megaprojects, 49 percent
- in recreation, 46.8 percent.

This confirms the results of a 1981 survey, which found that 85 percent of Albertans felt that the people of Alberta generally benefit from universities. This also reflects a survey conducted in British Columbia late last year which showed extensive support for university funding.

A greater number of Alberta households will have a member attending university in the next two years. The survey showed that 23.4 percent of Alberta households will have a member attending university in the next two years, compared to 19.9 percent over the last two years.

This finding appears to run counter to the government's projections that there will be a decrease in university enrolment.

Extensive public support was apparent for the statement that general education is the more important role a university can play. Agreeing with this statement were 21.7 percent of respondents. A further 39.8 percent say that job

Continued on page two

15 May 1986

Continued from page one

training and general education are equally important.

Other results of the survey are:

- Agreeing strongly or somewhat strongly with the statement that any qualified resident of Alberta should be able to attend university were 88.9 percent.
- Additional funding should go to existing universities, said 67.1 percent. Only 18.9 percent favored creating new degree-granting facilities.
- There was strong support for the traditional functions of a university: teaching and research. When asked which approach a university or college should take if less funding were available for education, only 6.7 percent said they would favor cuts in teaching staff; and only 13.2 percent said they would support cuts in research funding.
- The statement, "that it is important to continue improving the quality of university education, even if it means increased expenditures by the Alberta government", was supported strongly or somewhat strongly by 76.9 percent of the respondents. □

Le Monde Surveys French Students

Submitted by L.A. Kosiński,
Geography

The prestigious French daily *Le Monde* published recently the results of a survey on attitudes of students (6 March 1986, Supplement to No. 12784). The questions concerned students' political views, attitudes to studies, perception of values, thoughts about their future and opinions about some social institutions.

I read the *Le Monde* article with great interest and assume that some of my colleagues will also be interested in the views of students from an academic environment long known for its high levels of involvement and activity.

Political Views

The largest proportion declared their proximity to the Socialist Party (43 percent; among lawyers and humanists, over 50 percent), followed by two conservative opposition parties, UDF and RPR (12 percent each; twice as many

among medical and engineering students). More extreme parties do not seem to attract many students: ecologists, 7 percent; extreme left, 4 percent; communists, 3 percent; and extreme right, 2 percent.

Studies

The great majority of students are satisfied with their studies (77 percent; among medical students this proportion rose to 86 percent), and, if given another chance, would make the same choice of subject (66 percent, but only 53 percent among the law students). On the other hand, less than a half felt that the studies prepare them well for jobs (47 percent, while significant minority were of the opposite view (35 percent) and 17 percent refused to answer the question.

Asked how much time they spend on studies, 37 percent thought that they were spending a lot of time (two extremes in this category were represented by medical students—57 percent and lawyers—26 percent). On the other hand, 20 percent declared that they were putting in very little time.

One-third of respondents worked in order to finance studies (two-fifths among students from modest background). The proportion of working students varied among the disciplines, largely reflecting their traditional social background—45 percent among arts students, 35 percent among science students and 24 percent among lawyers and medical students.

Future

Asked about the meaning of success, most respondents selected happy family life (33 percent, but much higher among medical students: 52 percent, and scientists, 45 percent); in second place was creation of something of lasting time (31 percent), less persons opted for a position of higher responsibility (15 percent), free time (12 percent), and lots of money (5 percent). Gender differences were interesting here—among men, there was a greater value placed on free time (16 percent); among women, on creation (34 percent) and responsibility (17 percent).

More than 40 percent expected to work as consultants, professionals or independent workers 10 years hence, one-quarter expected to work for governments, 14 percent

as employees of large private companies and 10 percent as owners of companies created by themselves.

The majority were prepared to move if this was necessary for their careers but they were not prepared to sacrifice family life. Specifically, 79 percent would accept frequent moves if related to the change of job; 58 percent would be prepared to live abroad even if this were not in a particularly attractive country. However, only 37 percent would accept long hours if this meant hardship in family life.

Value

Students were asked about their views on a number of institutions and social phenomena and here are the answers to some of them.

	Positive opinion	Negative opinion	No answer
Family	85	10	5
Universities	65	28	7
Justice	61	30	9
Nationalized enterprises	47	32	21
Unions	45	44	11
Business associations	38	42	20
Church	33	50	17
Administration	25	66	9
Army	22	67	11
Political parties	21	72	7

	Con-demnable	Non-con-demnable	No answer
Racism	90	9	1
Drugs	66	30	4
Pornography	43	50	7
Adultery	37	53	10
Profit	17	77	6
Abortion	15	80	5
Homosexuality	13	81	6
Contraception	4	96	0

Among the rights and freedoms enjoyed by French society, freedom of the press (61 percent) and right to vote (59 percent) were most appreciated; other freedoms, less frequently given high priority, included right to own property (24 percent), right to strike (22 percent), religious freedom (17 percent) and right to abortions (16 percent). To this question several answers were allowed, hence the total exceeds 100 percent.

Family

Only 7 percent of students were married and only 11 percent lived with someone. Medical students had somewhat higher proportions in these two categories (12 and 20, respectively).

Asked if they considered marriage to be an outdated

institution, only 23 percent agreed and 73 objected, with 4 percent abstaining. There were some differences of views between men and women (27 percent and 18 percent against marriage) and among different categories—higher than average anti-marriage percentages were found among the students of arts (28 percent), those with modest backgrounds (28 percent) and leftists (26 percent). □

Gary Hieftje to Give Boomer Lectures

The closing days of this month will contain a series of lectures by Gary M. Hieftje. Professor Hieftje, Distinguished Professor of Chemistry at Indiana University, will visit our campus as the 28th speaker in the Boomer Lecture Series.

Professor Hieftje is Chairman of the Analytical Division of the American Chemical Society. His research interests include the investigation of basic mechanisms in atomic emission, absorption, and fluorescence spectrometric analysis, and the development of atomic

methods of analysis. The on-line computer control of chemical instrumentation and experiments has also attracted Dr. Hieftje.

The 1986 Boomer Lectures consist of: "Fluctuation Analysis Spectroscopic Techniques (FAST) for the Laser-Based Observation of Rapid Chemical Events (26 May, 11 a.m.); "New Chemical Separations and Measurements" (27 May, 11 a.m.); "Mechanisms of Atom and Ion Formation and Excitation in Spectroscopic Sources" (28 May, 11 a.m.); and "Fundamental and Applied Investigations Into Atomic Spectrometry" (29 May, 11 a.m.)

All lectures will be delivered in V-107 Physical Sciences Complex.

Professor Hieftje joined the faculty at Indiana University in 1969 and became a full professor there in 1977.

In 1983, he was the co-recipient of an IR-100 award for the development of the atomic absorption background-correction technique that bears his name. In the summer of that year, he received a senior guest fellowship from the Science and Engineering Research Council of Great Britain.

Last year, he was appointed to a Distinguished Professorship at Indiana University and received the American Chemical Society Chemical Instrumentation Award.

The Boomer Lectures, inaugurated in 1958, serve as a reminder of the contributions of Edward Herbert Boomer, who was associated with the Department of Chemistry from 1925 to 1945. □

Do You Want to Influence the Future Development of Your University?

You are invited to a public meeting on Wednesday, 28 May, at 7:30 p.m. to discuss future directions for the University of Alberta.

The meeting will take place in L-1 Humanities Centre.

To help in this discussion, a publication has just been released titled "The Next Decade and Beyond: A Plan for the Future."

To be prepared to participate fully, write or telephone for your copy today:

CBC's Offer Still Stands

CBC Radio's call for reviewers and expert commentators has not fallen on deaf ears. It will be recalled that on 1 May, *Folio* carried an article which stated that CBC had flagged some specific needs that "the University of Alberta talent pool might help us fulfill." Since then, 15 people have called either CBC or the Office of Public Affairs (the "local connection") and expressed an interest in broadcasting.

Susan Freedman, Director of Radio, is delighted with the response and intends to interview each individual personally.

To cover the waterfront and more than a few of its piers, the

corporation needs some more informed voices. The "help wanted" list reads: restaurant reviews, movie reviews, trends commentator, medicine/medical research commentator, ethics/philosophy/religion contributors for "Open House" (Sunday, 9 to 10 p.m. CBC Radio; 5 to 6 p.m. CBC Stereo), music specialist to work with CBC producer in developing on-campus talent for CBC regional programs, high tech specialist to work with CBC producer in developing a proposal for CBC High Tech consumer program.

Members of the University community who could discuss advances in areas that affect people's lives are also invited to approach CBC.

Also, CBC is most interested in expanding its range of experts, people who can comment on breaking stories of import.

Faculty who would like to follow up on CBC's invitation are asked to contact Susan Freedman, Director of Radio, Canadian Broadcasting Corporation, P.O. Box 555, Edmonton T5J 2P4, telephone 469-2321; or C.A. Squibb, Director, Office of Public Affairs, 423 Athabasca Hall, telephone 432-2325. □

For Good(fit)ness Sake, It's Aerobicsfest '86

Aerobics is no longer just aerobics. We now have advanced level aerobic dance, beginner level aerobics, stretch and tone, low impact aerobic dance, etc. It may well be that the aerobics instructor who took an extended break missed a new wrinkle or two. As part of Physical Activity Week (24 May to 1 June) on campus, the Department of Athletic Services will take a reading on aerobics in Edmonton. Aerobicsfest '86, to be held in the Universiade Pavilion on 25 May, is intended for aerobics instructors and the public. The former can see the latest techniques in aerobics class instruction; the latter can participate in classes led by some of Edmonton's foremost aerobics teachers.

The workshops will start at noon; the public portion will get under way at 1:30 p.m. and continue through the afternoon.

University Fitness Coordinator Art Burgess says Aerobicsfest is an

In response to the shortage of occupational therapists and physical therapists in Alberta, the Faculty of Rehabilitation Medicine will increase enrolment in the Departments of Physical Therapy and Occupational Therapy.

The expansion of Occupational Therapy will start on 1 July and will include an innovative accelerated program which will admit students who have already completed two years of university education to a two-year professional program. Forty students will be admitted annually to the accelerated program over a three-year period. Following this three-year intake, the annual enrolment quota for the on-going Occupational Therapy program will increase from 40 to 60 students.

Physical Therapy will increase its quota from 44 to 66 students on 1 September.

The increases (and the filling of up to 12 full-time academic positions) are made possible by an additional \$1.25 million grant from the provincial government to the Faculty.

attempt to educate the public about safety in aerobics and to illustrate that is a safe and enjoyable way of getting fit.

Dr. Burgess feels that many members of the public have never seen a well-run aerobics class, let alone participated in one. "Aerobicsfest '86 will provide this opportunity. Five public classes will be taught. These will give persons of any level a chance to be safely involved in an aerobics class," he says. Levels ranging from beginner to advanced will be taught. A \$2 entry fee will be charged. Local suppliers of aerobics wear have donated a number of prizes which will be given to lucky participants. Fruit juice and diet coke will be available.

Aerobicsfest '86 is hosted by the University and is organized by the Alberta Aerobic Dance Association, City Parks and Recreation, the YMCA, the YWCA, the University and a number of private fitness clubs in the city. □

Ceiling on Physical and Occupational Therapy Enrolment Raised

The enlarging of the programs represents a coordinated effort on behalf of the University, government and clinical communities to respond to the manpower shortages in rehabilitation medicine personnel in Alberta. By increasing the numbers of students within both degree programs by approximately one-third, the ability of physical

and occupational therapists to meet the health care needs of Albertans will be strengthened.

According to Dean Martha Piper, the awarding of the grant also represents an unprecedented opportunity within Canada to develop and expand model educational programs in rehabilitation medicine. □

Summer Sports Camps on the Ball

If Johnny can't come out and play this summer it may be because he's mastering a sport at the University's Summer Sports Camps. From 30 June to 28 August, scores of young athletes will be at the Van Vliet Physical Education and Recreation Centre receiving "the best available instruction in fundamentals."

The camps are now in their twentieth year of operation. This year, their popularity has resulted in the addition of baseball, goaltender school, ringette, coaching school for women (volleyball and basketball) and wheelchair basketball. (The other camps are: basketball, football, gymnastics, hockey, power skating, soccer, swimming, tennis, track and field, volleyball and wrestling.) On the other side of the coin, however, enrolment quotas have had to be enforced in some camps and applications are processed on a first-come, first-served basis. Parents should note that some of the more popular camps have more than one session from which to

choose.

The coaching staff includes Sherry Melney and Don Horwood, head coaches of the Panda and Bear basketball teams, respectively; Ray Brown, 1982 and 1985 Alberta Baseball Association Coach of the Year; Betty Baxter, captain of Canada's 1976 Women's Volleyball team; Francis Tally, head coach of the Golden Bear Gymnastics program; and Tina Theune-Meyer, visiting soccer coach from West Germany.

The camps are for boys and girls age 8 and older. Participants will be housed in the Lister Hall residences. Recreational swimming is also part of the package, full details of which can be obtained from: Summer Sports Programs, Pavilion 220, University of Alberta, Edmonton, Alberta T6G 2H9. The camp information line is 432-3534.

The motto of the boys' basketball camp, "We'll put the fun into fundamentals", could easily be applied to the sports camps as a whole. □

The Winners

Jeanette Bowman, Henry Kreisel and Jim Muldowney (left to right), recipients of 1986 Rutherford Awards for Excellence in Undergraduate Teaching (along with Norman Yates who could not be present), were honored during a reception at University House on 6 May. They will also come in for praise during spring convocation exercises early next month.

Applications Invited for Garvie Memorial Award

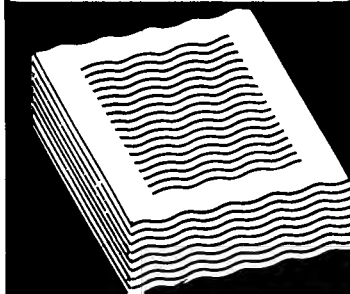

Each year, the Sandra Garvie Memorial Fund grants up to \$1,000 on behalf of public legal education. The grant is intended to encourage individuals to improve their knowledge of this field and, by extension, to add to the existing body of knowledge.

Lois Gander, President of the Sandra Garvie Memorial Fund, notes that candidates for the award can be taking a program of formal studies at a community college or university or be pursuing an independent learning activity.

The award was created to honour Sandra Garvie, Librarian at the Legal Resource Centre, Faculty of Extension, from 1976 to 1979, for her contribution to the field of public legal education.

Applicants are requested to submit a research proposal or proposed course of study, including a proposal budget, by 30 June to: Sandra Garvie Memorial Fund, c/o Ms. Lois E. Gander, Director, Legal Resource Centre, 10049 81 Avenue, Edmonton, Alberta T6E 1W7. □

Currents

Farewell Reception for Rod Banks

Rod Banks, Area Coordinator, Library Administrative Services, is leaving the University Library at the end of June after 25 years of service with the University. He is joining the University of New Brunswick as Associate Director of Libraries at Fredericton.

A farewell reception will be held for Mr. Banks at the Faculty Club on Friday, 13 June, from 3 to 5 p.m. All of his friends and colleagues are invited to attend.

Hot hors d'oeuvres will be served. If you plan to attend, please send \$6.50 to Marlene Sherban, Library Accounting, Cameron Library, by 29 May.

A gift will be presented; if you wish to donate, please enclose your contribution. Make your cheque payable to the University of Alberta and indicate "attendance" and/or "gift."

Selection Committee Invites Views

The Selection Committee for the Directorship of the Centre for the Advanced Study of Theoretical Psychology is now holding its meetings. Those interested in submitting their views to the committee are invited to do so by writing to M. McMillan, Associate Dean, Faculty of Arts.

Summer Mass Schedule

The Summer Mass schedule, Catholic Campus Ministry, St. Joseph's College, is as follows: Monday to Friday, 7:30 a.m. and 12:30 p.m.; Saturdays, 12:10 and 4:30 p.m.; Sundays, 9:30 and 11 a.m.

Talks

Economics

15 May, 3 p.m. Jan Kmenta, University of Michigan, "Recent Developments in Econometrics I." 8-22 Tory Building.

20 May, 3 p.m. Dr. Kmenta, "Recent Developments in Econometrics II." 8-22 Tory Building.

22 May, 3 p.m. Dr. Kmenta, "Recent Developments in Econometrics III." 8-22 Tory Building.

Medicine

16 May, 8 a.m. R. Rossall, "Seoul Searching: Korean Exchange 1986." 2-115 Clinical Sciences Building.

16 May, 12:30 p.m. Robert Fraser, Birmingham, Alabama, "Upper Airway Obstruction: Physiologic Deductions from Static Images." 2F104 Mackenzie Health Sciences Centre.

Reuben Benjamin Sandin Lecture Series

20 May, 11 a.m. Cheves Walling, Department of Chemistry, University of Utah, "The Radical Chemist's Armory." E1-60 Chemistry Building.

21 May, 11 a.m. Dr. Walling, "Structure, Reactivity and Rates in Radical Reactions." E1-60 Chemistry Building.

22 May, 11 a.m. Dr. Walling, "The Polar-Radical Borderline." E1-60 Chemistry Building.

23 May, 11 a.m. Dr. Walling, "Some Chemistry of Radical Cations." E1-60 Chemistry Building.

Alberta Heritage Foundation for Medical Research

22 May, 2:30 p.m. Yoko Naya, Associate Director, Suntory Institute for Bioorganic Chemistry, Japan, "Recent Studies in Ecochemicals: Symbiosis-inducing Compounds Between the Sea Anemone and Anemone Fish." E3-25 Chemistry Building.

23 May, 10 a.m. Dr. Naya, "Recent Studies in Ecochemicals: The Chemical Identity of a Molt-inhibiting Hormone." 4069 Dentistry Pharmacy Centre. Dr. Naya will talk with members of WISEST and the UAYS during her visit to the University.

Edward Herbert Boomer Lecture Series

26 May, 11 a.m. Gary M. Hieftje, Professor of Chemistry, Indiana University, "Fluctuation Analysis Spectroscopic Techniques (FAST) for the Laser-Based Observation of Rapid Chemical Events." V-107 Physics Building.

27 May, 11 a.m. Professor Hieftje, "New Chemical Separations and Measurements." V-107 Physics Building.

29 May, 11 a.m. Professor Hieftje, "Fundamental and Applied Investigations Into Atomic Spectrometry." V-107 Physical Building.

Rehabilitation Medicine

27 May, 1:30 p.m. Carl Granger, Department of Rehabilitation Medicine, Buffalo General Hospital, "Rehabilitation Outcomes in Stroke." Glenrose Rehabilitation Hospital Auditorium.

27 May, 4 p.m. Dr. Granger, "National Data Collection System." 203 Corbett Hall.

28 May, 9 a.m. Dr. Granger, "Principles of Functional Assessment in Rehabilitation." (Keynote address for Rehabilitation Research Day, University of Alberta Hospital, Department of Physical Medicine.) 2-115 Clinical Sciences Building.

The Arts

Ring House Gallery

Until 25 May. "Chisel and Brush"—an exhibit of stonecut and stencil prints created by Inuit artists. Co-sponsored by the Boreal Institute for Northern Studies in celebration of its 25th Anniversary.

SUB Theatre

Japan Awareness Month sponsored by the Consulate-General of Japan.

16 May, 6:15 p.m. Open ceremony.

16 May, 6:30 p.m. "Izakaya Choji (Love)."

16 May, 8:50 p.m. "Otoko wa Tsurai yo: Kuchibue o Fuku Torajiro (Tora-san goes Religious)."

17 May, 6:30 p.m. "Jo no Mai (Appassionata)"—A Story of a Passionate Lady Artist.

17 May, 9 p.m. "Jidaiya no Nyobo (Time and Tide)."

All films have English sub-titles. Admission free. Steve Fukushima, 422-3753 or 423-4750.

19 to 31 May, 7:30 a.m. to 11 p.m. Alberta Dance Educators' Association's Annual Dance Competitions. Marie Casey, 463-2105.

Edmonton Film Society

26 May, 8 p.m. British Film Classics, "The Little Kidnappers" (1954).

2 June, 8 p.m. "The Passionate Friends" (1949).

Broadcasts

Radio

CKUA radio 580 AM and 94.9 FM.

17 May, 7 p.m. "University Concert Hall."

24 May, 7 p.m. "University Concert Hall." CJSR-FM 88.5, Campus Radio. Eclectic programming, including folk, jazz, new music, rock and U of A news and sports coverage. See Airtight magazine for full programming details. Send public service announcements to 224 SUB, 432-5244.

Positions

The University of Alberta is committed to the principle of equal opportunity in employment and encourages applications from all qualified people.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Academic

Head, Administrative and Access Services (H.T. Coultts Education Library)

The University of Alberta Library is accepting applications for the position of Head of Administrative and Access Services (H.T. Coultts Education Library). Acting as assistant to the Education Area Coordinator, the incumbent will be responsible for all administrative and support functions, including budget administration, building security and maintenance, circulation services, reserve room and stacks. Over the next two years plans will be developed for changing workflow and procedures and a comprehensive staff retraining program initiated for a new on-line circulation system. Candidates must be able to deal with the public and take a leadership role in providing responsive, efficient public service. The incumbent will also be required to undertake reference duties on a regular basis.

The successful candidate will have a degree in Library Science with at least five years of progressively responsible library experience. A degree in Education and experience with on-line circulation systems would be desirable.

Appointment will be commensurate with education and experience. Current salary range is \$30,316 to \$39,292. Candidates should send a curriculum vitae, transcripts of academic records and the names of three references to: J. Teskey, Personnel Officer, Cameron Library, University of Alberta, Edmonton, Alberta T6G 2J8.

Closing date is 30 May 1986.

Sessional Appointment, Department of Genetics

Applications are invited for a sessional appointment (full-time temporary), 1 September 1986 to 30 April 1987, to teach population genetics and/or human genetics, with some adjustment possible to fit the interests of the appointee. Candidates should have a PhD and experience appropriate to the teaching involved. Salary from \$22,000 (for eight months) depending on experience. A removal grant is available.

Applications, including curriculum vitae with the names of three referees, should be sent to David Nash, Chairman, Department of Genetics, University of Alberta, Edmonton, Alberta T6G 2E9. Closing date for applications is 4 July 1986.

Non-Academic

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. These vacancies cannot be guaranteed beyond the date of publication.

Clerk Steno II, Soil Science, (\$1,190-\$1,478)
Clerk Steno II (Receptionist), Legal Resource Centre, (\$1,190-\$1,478)
Senior Clerk, Physical Plant—Parking Services, (\$1,190-\$1,478)

Clerk Typist III (Receptionist), Personnel Services and Staff Relations, (\$1,326-\$1,666)
 Clerk Steno III, Sociology, (\$1,326-\$1,666)
 Clerk Steno III, Student Counselling Services, (\$1,326-\$1,666)
 Data Entry Operator II (Part-Time Term), Educational Research Services, (\$686-\$870)
 Student Records Processing Clerk I, Faculté Saint-Jean, (\$1,326-\$1,666)
 Student Records Processing Clerk II, Dean of Science, (\$1,478-\$1,888)
 Payroll Clerk, Office of the Comptroller, (\$1,478-\$1,888)
